

Name _____

Date _____

Example A (Model Diagram)

Study each model diagram.
What is the missing number?

Solution

(a) $7 + 4 = 11$

The missing number is 11.

4 is added on to 7 to give the same value as the unknown number.

(b) $15 - 9 = 6$

The missing number is 6.

9 is taken away from 15 to give the same value as the unknown number.
